

Bladder EOD v3.1 and 8th Edition AJCC Crosswalk 2024

EOD Primary Tumor	AJCC Primary Tumor	Description
000	Ta	Non invasive papillary carcinoma
050	Tis	Urothelial carcinoma in situ / CIS
100	T1	Confined to mucosa NOS
130	T1	Lamina propria Stroma Subepithelial connective tissue Submucosa Subserosa Tunica propria
150	T1	Localized, NOS
170	T1	Extension to distal ureter (Subepithelial connective tissue of bladder and/or distal ureter)
200	pT2a	PATHOLOGICAL assessment only (requires a cystectomy) Muscle (muscularis propria) of bladder only Superficial muscle - inner half
250	pT2a	PATHOLOGICAL assessment only (requires a cystectomy) Extension to distal ureter Superficial muscle of bladder and/or distal ureter
300	pT2b	PATHOLOGICAL assessment only (requires a cystectomy) Muscle (muscularis propria) of bladder only Deep muscle--outer half Extension through full thickness of bladder wall BUT still contained within bladder wall
350	pT2b	PATHOLOGICAL assessment only (requires a cystectomy) Extension to distal ureter Deep muscle or extension through wall of bladder and/or distal ureter
370	T2	Muscle (muscularis propria) invaded, NOS of bladder only (Example: on TURBT/Cystoscopy)
400	T2	Extension to distal ureter (Example: on TURBT/Cystoscopy) Muscle (muscularis propria) invaded, NOS of bladder and/or distal ureter
450	pT3a	Extension to perivesical fat/tissues (MICROSCOPIC) including Adventitia Distal periureteral tissue Periprostatic tissue Peritoneum Serosa (mesothelium) (to/through) Tunica serosa (to/through)
500	pT3b	Extravesical mass (Clinically or grossly apparent extravesical mass) Extension to perivesical fat/tissues (MACROSCOPIC) including Adventitia Distal periureteral tissue Periprostatic tissue Peritoneum Serosa (mesothelium) (to/through) Tunica serosa (to/through)
550	T3	Extension to perivesical fat/tissues, NOS (UNKNOWN if MICROSCOPIC or MACROSCOPIC), including Adventitia Distal periureteral tissue Periprostatic tissue Peritoneum Serosa (mesothelium) (to/through) Tunica serosa (to/through)

600	T4a	Extravesical tumor with extension to Parametrium Prostate, NOS Prostatic stroma Rectovesical/Denonvilliers' fascia Seminal vesicle Ureter (excluding distal ureter) Urethra (including prostatic urethra) Uterus Vagina Vas deferens
650	T4b	Extravesical tumor with extension to Large intestine Rectum (male) Small intestine
700	T4	Bladder is "fixed" NOS
720	T4b	Bladder is "fixed" with extension to structures in code 650 OR Extravesical tumor with extension to Abdominal wall Bone Pelvic wall Pubic bone Rectum (female) Further contiguous extension
750	T4	Extravesical tumor, NOS
800	T0	No evidence of primary tumor
999	Tx / BLANK	Unknown; extension not stated Primary tumor cannot be assessed Not documented in medical record

EOD Regional Lymph Nodes	AJCC N	Description
000	N0	No regional lymph node involvement
300	N1	SINGLE regional lymph node (excluding common iliac)
400	N2	MULTIPLE regional lymph nodes (excluding common iliac)
700	N3	Common iliac lymph node(s) WITH or WITHOUT other regional lymph node(s)
800	N1	Regional Lymph Nodes NOS
999	Nx / Blank	Unknown; regional lymph node(s) not stated Regional lymph node(s) cannot be assessed Not documented in medical record

EOD Mets	AJCC M	Description
00	M0	No distant metastasis Unknown if distant metastasis
10	M1a	Intraaortacaval Paracaval Superior mesenteric Distant lymph node(s), NOS
50	M1b	Other specified distant metastasis WITH or WITHOUT distant lymph node(s) Carcinomatosis
70	M1	Distant metastasis, NOS
